DETAILED ACTION

The amendment filed 5/12/06 has been entered, however, after further consideration, the following claim objections were discovered.

Claim Objections

Claims 14,19,22-24 are objected to because of the following informalities: In claim 14 line 4, the phrase "undesired substance" is considered indefinite. The phrase "undesired substance" in claim 14 is a relative term, which renders the claim indefinite. The phrase "undesired substance" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. Appropriate correction is required.

Regarding claim 19, the term within parenthesis "(wet volume weight)" renders the claim indefinite because it is unclear whether the term "(wet volume weight)" is part of the claimed invention. See MPEP § 2173.05(d).

Regarding claim 22, the term "preferably" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Allowable Subject Matter

Claims 13-24 are allowed.

Conclusion

This application is in condition for allowance except for the formal matters described above.
